

AVA

Vacuuming with a soft brush attachment or dusting gently with a dry cloth is recommended for regular maintenance.

Do not wipe with a wet cloth during or after installation as this will remove the dye and damage the veneer.

Color may fade or change when exposed to direct sunlight for ongoing periods of time.

A matte sealant with UV guard can be applied for additional protection. Please consult with your local professional. We are happy to provide you with a sample of your pattern for testing purposes.

If you require spot cleaning, we are happy to provide you with a sample of your pattern for testing purposes.

For additional cleaning please contact an experienced professional.
