

## KIJI

Vacuuming with a soft brush attachment or dusting gently with a dry cloth is recommended for regular maintenance.

Color may fade or change when exposed to direct sunlight for ongoing periods of time.

If you require spot cleaning, we are happy to provide you with a sample of your pattern for testing purposes.

It is important to remember that our wallcoverings are made from natural materials, and therefore cleaning solutions are not recommended.

For additional cleaning, please contact an experienced professional.
