FINISH BROCHURE

GREGORIUS | PINEO

# EXOTIC SERIES

Glamorous and refined at the same time, our **Exotic Series** makes a statement choice for any of our furniture or lighting styles. We handcraft three exotic wood veneers to pair with a selection of five G|P finishes. With finishes ranging in light, medium and darker tones, we further express the inherent beauty found in the patterns of these exotic woods.

Our finish pairings with **Spalted Beech** complement its random patterns, dark lines, and faint pastel hues. Explicit on Bleached or more subdued on Mink, there's dramatic interest to be revealed.

The striking beauty of **Zebrawood** is a game-changer. Discover an enhancement of its natural state in Bleached or an earning of its stripes in darker tones.

With a natural state of luster, **Anigre** reflects sophistication. Its pattern has nuanced markings and the warmth of the wood invites light into any interior space.
